

Jack Morgan

Computer Science Graduate | Seeking Entry-Level Roles in IT Analysis, Support, and Technical Consulting

Personal Statement

First-Class Computer Science graduate with hands-on experience in IT support, system reliability, and cloud deployment. Skilled in diagnosing issues, producing documentation, and delivering secure solutions. Seeking an entry-level role to apply support and analytical skills in business technology.

Professional Skills

- **IT Support & Systems Reliability** – Diagnosing hardware/software issues, performing QA testing, and managing bug tracking workflows. Skilled in AV setup, PC configuration, and troubleshooting in remote/on-site environments.
- **Cloud & Collaboration Tools** - Experience with AWS S3, CloudFront, Git, GitHub, Trello, and Discord. Skilled in static hosting, CDN integration, version control, and Agile workflows.
- **Data & Systems Integration** - Integrated RESTful APIs (Google Maps, OpenWeather) and managed NoSQL databases (Firestore). Implemented secure CRUD operations and cloud sync.
- **Documentation & Technical Communication** - Produced technical specs, game design docs, and tutorials. Strong written/verbal communication for cross-functional collaboration.
- **Embedded Systems & Hardware** - Developed automation and robotics projects using C++, Python, Arduino, and Tinkercad.
- **Security Awareness** - Applied basic cryptographic principles in projects. Completed Cyber Security Awareness Training.

Work Experience

05-2025 – Present	Cosmic Sabbath – Remote, UK Lead QA Tester & Gameplay Programmer Led QA and gameplay programming for Have You Seen This Man, a PC puzzle game. Designed core systems including interaction logic, audio triggers, and puzzle mechanics. Managed structured bug testing and produced technical documentation. Collaborated with cross-functional teams to enhance development and user experience.
03-2018 – 06-2025	Opsters eSports – Remote, UK Founder & Digital Platform Manager Founded and led a 1,300+ member non-profit gaming community. Directed digital strategy, recruitment, and event management. Developed and maintained the website (HTML, CSS, JavaScript), optimising performance, UI/UX, and content consistency.
02-2020 – 02-2020	Reconomy – Telford, UK Work Experience Placement (IT & Communications) Provided IT support and computer maintenance in a corporate setting. Assisted with hardware/software troubleshooting and drafted press releases. Attended a business proposal meeting for strategic insight.

Programming Languages

- ❖ Python
- ❖ C++
- ❖ HTML
- ❖ CSS
- ❖ JavaScript
- ❖ C#

Tools

- ❖ AWS S3
- ❖ CloudFront
- ❖ Firebase
- ❖ Git
- ❖ GitHub
- ❖ Trello
- ❖ Arduino
- ❖ Tinkercad
- ❖ FileZilla
- ❖ Azure

2022-01 – 2025-07

BSc Computer Science: Computer Science and Engineering

University of Wolverhampton - Wolverhampton, WLV

Grade: 1st Class Honours

Key Modules:

Cloud Systems, Distributed Computing, Big Data, Embedded Systems, Software Architecture, Robotic Engineering, Emerging Technologies, Collaborative Development.

Featured Projects:

Hazard Perception VR (Dissertation)

Designed a VR training simulation with AI-driven traffic logic and adaptive difficulty. Focused on system reliability and user interaction, demonstrating robust performance in a virtual environment.

Survey4All – Collaborative Project

Managed a team to deliver a secure survey platform. Oversaw role assignment, technical compliance, and Agile planning to produce a functional Minimum Marketable Product (MMP).

Cloud Deployment Projects

- AWS Static Website**
Configured S3 for static hosting and integrated CloudFront CDN for secure content delivery.
- Smart Review Platform (Firebase + Google Assistant)**
Built a voice-enabled review system using Firebase and Google Assistant. Implemented real-time database sync, secure CRUD operations, and smart home integration.

Embedded Systems & IOT Prototyping

Created sensor-based prototypes using Arduino and Tinkercad, including motion-triggered alarms and servo-controlled automation. Demonstrated embedded logic and multi-microcontroller communication.

Python Utilities for Security & Logic

Developed a Caesar Cipher tool and a turn-based game with AI logic and persistent score tracking. Projects showcased algorithmic thinking and secure file handling.

2019-09 - 2021-06

A Levels: Photography, Media Studies and Film Studies

Telford College - Telford, TFW

2015-09 - 2019-06

Relevant GCSEs: Maths, English, Science, Interactive Media, Enterprise and Marketing

Telford Priory School - Telford, TFW

Certifications

❖ Fundamentals of Operating Systems
(CodeAcademy, Mar 2025)

❖ Intro to Cloud Computing
(CodeAcademy, Apr 2025)

❖ Intro to the Command Line
(CodeAcademy, Apr 2025)

❖ Cyber Security Awareness Training
(Cyber Quarter, Mar 2024)

❖ IBM MQ Developer Essentials
(IBM, Nov 2023)

❖ UK Car Driving License – Category B
(DVLA, Jun 2023)

Soft Skills

❖ Structured Problem Solving

❖ Technical Communication
(Verbal and Written)

❖ Project & Process Ownership

❖ Root Cause Analysis

❖ Adaptability & Learning Agility

❖ Attention to Detail

❖ Team Collaboration
